The following is an examiner's statement of reasons for allowance:

The prior art does not teach the applicants' method of making a sintered shaped article in the specific process steps as claimed by applicants nor does it teach specifically mixing fly ash, superplasticizer, and water as starting raw materials.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority Document:

The Australian priority document 2003905445 would appear to be missing from the applicants' submissions. Please submit this document so applicants can be granted foreign priority status.
